South Korea's KEPCO inaugurates 889MWh BESS portfolio

According to a June 2022 report by Electronic Times (ET News), an information technology media outlet based in South Korea, KEPCO announced its plan to tender contracts to build the five BESS ...

EDPL Press Release

Equis is successfully leveraging its

extensive BESS track record in Korea, having owned and operated a 207MWh peak-shaving BESS project in Incheon and Pohang, the largest in Korea at the time, as well as ...

Battery Energy Storage for Off-Grid Applications

Implementation of a BESS system in an off-grid site will require a energy needs assessment, battery system design, integration and control systems, testing and commissioning.

BESS for Construction Power Solutions

Our Energy Storage Power Amplification Cabinet is a purpose-built construction battery solution and a mobile BESS for construction sites. It provides zero-emission, low-noise, and high-reliability power -- ...

South Korea Launches 540MW Battery Energy Storage Tender to Stabilize Grid

Deploying long-duration storage will allow Korea to capture surplus renewable energy during these off-peak periods and shift it to peak demand hours, reducing curtailment and maximizing asset ...
