

# 200 MW air energy storage project

## Overview

---

A first-of-its-kind energy storage project for Australia, the LTESA contract demonstrates the important capabilities of Hydrostor's Advanced Compressed Air Energy Storage (A-CAES) technology, which will be deployed at Silver City to provide 200 MW of renewable energy. A first-of-its-kind energy storage project for Australia, the LTESA contract demonstrates the important capabilities of Hydrostor's Advanced Compressed Air Energy Storage (A-CAES) technology, which will be deployed at Silver City to provide 200 MW of renewable energy. BROKEN HILL, AUSTRALIA, Decem— Hydrostor, a global long duration energy storage (LDES) developer and operator, has been awarded a Long-Term Energy Service Agreement (LTESA) by AEMO Services, as part of the New South Wales (NSW) government Electricity Infrastructure Roadmap, for its. Broken Hill is closer to becoming one of the world's largest renewable energy microgrids with the New South Wales (NSW) government giving planning approval for a compressed air energy storage (CAES) facility near the historic mining town. Canadian company Hydrostor has secured NSW government. NTPC has issued an Expression of Interest (EoI) for a compressed air-based, including liquefied air-based, Long Duration Energy Storage System (LDES), with submissions open until Febru. The investment came from Canda Growth Fund (CGF), Goldman Sachs Alternatives and Canada Pension Plan Investment Board (CPP. Deploying innovative, non-lithium storage technology to help 3CE achieve 100% clean and renewable energy by 2030 MONTEREY, Calif. 18, 2023 (GLOBE NEWSWIRE) -- Hydrostor, a global long duration energy storage (LDES) developer and operator, has been awarded a Long-Term Energy Service Agreement (LTESA).

## 200 MW air energy storage project

---

### 3CE TO PURCHASE 200 MW OF LONG DURATION ENERGY STORAGE ...

The Willow Rock advanced compressed air storage project provides critical storage that will help bridge time periods when renewable generation is less plentiful.

---

### Major win for compressed air energy storage as Hydrostor awarded ...

Major win for compressed air energy storage as Hydrostor awarded 200 MW Long-Term Energy Service Agreement

---

### NTPC Issues EoI for 1-GWh Air-Based LDES Project

The EoI aims to develop a proposed 200 MWh (25 MW × 8 hours) and 800 MWh (100 MW × 8 hours) energy storage project, taking the total project capacity to 1 GWh. NTPC will provide ...

## Silver City Energy Storage Centre

The Silver City Energy Storage Centre, a 1,600 megawatt hour (MWh) facility being built in Broken Hill, NSW, will eliminate the need for major investments in expensive new transmission lines and ongoing ...

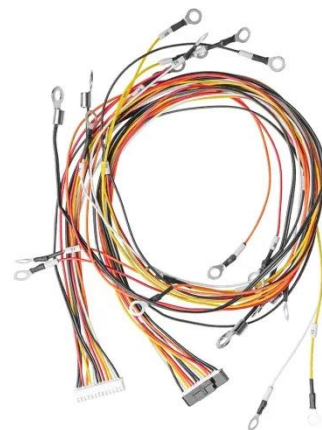

## Advanced Compressed Air Energy Storage Systems: Fundamentals ...

The comparison and discussion of these CAES technologies are summarized with a focus on technical maturity, power sizing, storage capacity, operation pressure, round-trip efficiency, ...

## Hydrostor secures US\$200 million for A-CAES projects

Toronto, Ontario-headquartered Hydrostor has secured a US\$200 million investment for its advanced compressed air energy storage (A-CAES) projects both in Canada and globally.

## Silver city energy storage centre

The Silver City Energy Storage Centre

("Silver City") is an Advanced Compressed Air Energy Storage project that will have the ability to produce 200 MW of power and store up to 8 hours of energy.

## Australia gives go-ahead to 1.6 GWh compressed air storage project

Canadian company Hydrostor has secured NSW government approval to build a 200 MW/1.6 GWh CAES facility in a disused mine cavity near Broken Hill in the west of the state.

## Hydrostor Wins 200MW Compressed Air Energy Storage Deal

A first-of-its-kind energy storage project for Australia, the LTESA contract demonstrates the important capabilities of Hydrostor's Advanced Compressed Air Energy Storage (A-CAES) technology, which ...

## Hydrostor opens regional HQ in Australia to advance energy

## storage project

Once built, the A\$652 million project will be one of the world's largest compressed air projects. It will produce 200 MW of power and store up to 8 hours of energy.
