

Bergey wind turbine complaints

Overview

See BBB rating, reviews, complaints, and more. I have a 150 ft wind turbine that was built brand new in 2015 it has broke several times recently it backfed electricity into my barn, ruined my electric fencer sent electricity through cow stations, it is shut down currently because United Wind sold out, and part of my lease agreement was for them. BBB asks third parties who publish complaints, reviews and/or responses on this website to affirm that the information provided is accurate. However, BBB does not verify the accuracy of information provided by third parties, and does not guarantee the accuracy of any information in Business. It has come to our attention from neighbors of ours that Mike Bergey of Bergey wind power / and Hank Zevallos of Home wind power feel that it is okay to take orders from their customers, delay doing anything for (as we were told) 3 months then have the customer cancel the order and keep a NOMINAL. · Bergey says wind turbine buyers need to do a better job researching specific sites before they install a turbine. "The basic problem there is not with the machines themselves," said Bergey. Wind Energy Systems in Norman, OK. Better. The wind turbine I bought has been performing exceptionally well and has met all my energy needs. They were responsive to my inquiries and provided detailed installation instructions.
