

# Blue raven solar scams

## Overview

---

No, Blue Raven Solar is not a scam — it is a legitimate solar installation company. Some consumers may elect to not publish the details of their complaints, some complaints may not meet BBB's standards for publication, or BBB may display a portion of complaints when a high volume is received. Blue Raven Solar offers solar panel design and installation services. The company prioritizes a simple, straightforward process by helping customers every step of the way, including creating the designs, filling out the appropriate permits and installation. “Impressed with every step of the. blueraven. com legit?

It's definitely questionable, and we don't recommend it based on its medium-low trust. Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and more. Solar photovoltaic technology is one of the great developments of the modern age. Improvements to design and cost. A score we give a solar company out of 100 based on 13 criteria that our SolarReviews industry experts believe are the best criteria to separate good and bad solar companies. From the very beginning, William Odame, Project Manager, demonstrated exceptional attentiveness and dedication. The individuals setting up the solar panels seemed nice but we actually never chatted with them. After Solar installed, I did a private vendor.
