

Bulgaria home energy storage battery sales

Overview

Bulgaria became the EU's fastest-growing market for battery energy storage systems (BESS) in 2025, installing close to 2,500 MWh of new capacity, and is poised for a four- to fivefold expansion in 2026. However, new national legislation as well as funds provided through the European Union's Recovery and Resilience Facility (RRF) could add another 1 GWh of storage capacity over the next two years. Currently, the European Union added 27.1 GWh of battery capacity last year, marking a 12th consecutive record, driven by utility-scale storage. The battery storage growth rate in the EU rebounded strongly in 2025 after a slowdown. 15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE. This is shown by data from SolarPower Europe for 2025, cited by the Association for the Production, Storage, and Trade of Electricity (APSTE).

Bulgaria home energy storage battery sales

Bulgaria's Battery Storage Market

Bulgaria has installed between 40 MWh and 50 MWh of battery energy storage capacity to date. However, new national legislation as well as funds provided through the European Union's ...

1100% growth in one year: Bulgaria is among the EU leaders in ...

Bulgaria is among the leaders in the European Union in terms of newly installed battery energy storage capacity. This is shown by data from SolarPower Europe for 2025, cited by the ...

Why energy storage is a non-negotiable strategic asset in Bulgaria ...

Southeast Europe, and Bulgaria in particular, holds significant potential to become a regional hub for battery storage, thanks to its technical capabilities, market incentives and strong EU ...

Bulgaria's BESS market set to grow further after record 2025

Bulgaria became the EU's fastest-growing market for battery energy storage systems (BESS) in 2025, installing close to 2,500 MWh of new capacity, and is poised for a four- to fivefold ...

Record battery installations in EU in 2025 as Bulgaria enters top 3

The European Union added 27.1 GWh of battery capacity last year, marking a 12th consecutive record, driven by utility-scale storage. Bulgaria achieved the third-largest expansion and ...

Bulgaria's Battery Energy Storage Market Outlook 2025-2034

The newly updated Bulgaria BESS Market Outlook 2025-2034 highlights both the opportunities and challenges that will shape this sector over the next ten years.

Bulgaria's battery storage market gears up

Sepehr Soltani, lead energy storage analyst at Norwegian consultancy Rystad Energy told the RE-Source Southeast Conference that took place in Sofia, Bulgaria, in May that Bulgaria offers

Bulgaria Residential Energy Storage Market (2025-2031) , Trends

Residential energy storage systems are becoming essential for managing energy consumption and reducing reliance on the grid. Government incentives and declining costs of battery storage ...

Bulgaria Approves 4GWh Battery Storage Under RESTORE 2

Bulgaria approves funding for 31 battery energy storage projects totaling 4 GWh under the RESTORE 2 program.

Bulgaria Is Promoting Standalone Battery Storage Upto 10GW

Bgaria will finance 82 standalone battery

storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE.
