

# Canada grid-scale energy storage

## Overview

---

Canada plans a \$200B expansion of wind, solar and energy storage, aiming to create up to 350,000 jobs and reshape the national power grid. Toronto, Ontario – The Oneida Energy Storage Project has officially commenced commercial operations, becoming the largest grid-scale battery energy storage facility in. The Oneida Energy Storage Project, Canada's largest grid-scale battery storage facility and one of the largest globally, has officially begun commercial operations. Located in Haldimand County, Ontario, the 250-megawatt (MW) / 1,000-megawatt-hour (MWh) facility is powered by 278 Tesla Megapacks. At. The newly created Independent Energy System Operator says it wants more batteries connected to Nova Scotia's grid and it plans to open a call for bids from developers later this year.
