

# Cost of a 50kW Communication Cabinet for a European Data Center

## Overview

---

On average, across the major data centre hubs in Western Europe, they range between \$427 and \$460 per kW depending on location and power capacity required (4 kW, 10 kW, and 100 kW leases). As a general rule, it costs between \$600 to \$1,100 per gross square foot or \$7 million to \$12 million per megawatt of commissioned IT load to build a data center. Therefore, if a 700,000-square foot, 60-megawatt data center were to be built in Northern Virginia, the world's largest data center. Exos® CORVAULT™ 4U106 4U rackmount — featuring up to 2.0-metre-deep racks Maximise value and minimise TCO for scale-out workloads using a scalable, dense compute infrastructure focused on performance. Table of Contents Colocation Pricing Guide - (Updated June 2026) Looking to optimize your I. In this in-depth guide, we'll break down the important aspects of colocation pricing. By the end, you'll. We drive transparency, predictability and performance on complex projects and programmes, achieving successful outcomes and return on investment. Delivering innovative solutions and exceptional outcomes in the real estate, infrastructure, energy and natural resources sectors. Greenfield data centre construction costs have risen notably since last year, propelled by multiple factors, including supply chain.
