

# Does a solar roof still need tiles

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

## Overview

---

Unlike traditional solar panels that are mounted on top of a roof, solar roof tiles replace the traditional roofing material itself, offering a seamless design that blends into the structure of your home. Schedule a virtual consultation with a Tesla Advisor to learn more. Let's address the elephant in the room: the price tag. A more accurate. Solar roof tiles – also known as solar shingles or solar roofs – offer exactly that. If your roof is already old or damaged, it's smart to swap it out before installing solar tiles because you don't wanna rip out the tiles a few. These innovative tiles seamlessly integrate solar technology into your roof, providing clean and renewable energy while improving your home's curb appeal. In this blog, we'll look at the.

## Does a solar roof still need tiles
