

Dustproof battery cabinets for Australian hospitals

Overview

Our Australian-made lithium battery charging cabinets are engineered to curb these risks, with active cooling fans to regulate battery temperature, a liquid-tight sump to capture any electrolyte leaks, and lockable steel construction to secure batteries when not in use. Whether you require a standalone battery enclosure or shelving for an equipment shelter, outdoor battery cabinet or trailer enclosure, ICS Industries have a standard range available for immediate purchase, as well as custom designed equipment racks and battery shelves tailored to suit your specific. Multifile's Lithium Battery Charging cabinets are available in both a 20 and 8 station version. They are specifically designed to minimise risks associated with Li-ion battery charging, ensuring a safer workplace. Li-ion batteries require a cool, dry, secure and non-combustible environment for safe charging and storage. The cabinets contain two lockable doors (front and back) and removable side panels for easy access.

Dustproof battery cabinets for Australian hospitals

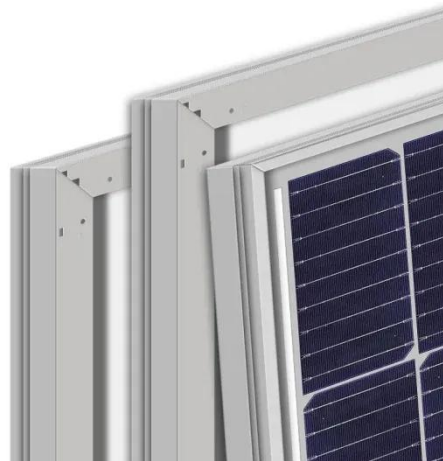

8 Outlet Battery Charging Cabinet , Storemasta

This Australian designed and made Battery Cabinet is constructed with double-walled sheet steel and 40mm thermal air barrier, spill containment sump and 150mm fan to offer optimum charging and storage conditions.
