Esta propuesta legislativa busca establecer las condiciones específicas para la promoción y masificación de los vehículos eléctricos en todo el territorio nacional, y de la infraestructura de abastecimiento de carga, mediante la creación de un marco legal que reduzca o elimine las. The Peruvian Congress presented a bill that seeks to promote and massify the use of electric vehicles in public passenger transportation services nationwide. The purpose of the initiative is to promote a quality public transportation system for the user, as well as to reduce greenhouse gas. Peru seeks to follow the path of fleet electrification, which is why, in his annual message to the nation, President Pedro Castillo announced a project to promote electromobility in the country. The President announced in his speech that he will present a draft bill on tax incentives for the.
