

Estonian road solar power system

Overview

Located in Lääne County, approximately 65 kilometres southwest of Tallinn, the solar park is expected to be operational by 2027 and will generate enough electricity to power over 80,000 Estonian households. The project is being developed in partnership with local landowner. EIB lends €31 million to Estonian renewable-energy company Sunly for a new solar park in the country, while SEB and Luminor will jointly contribute the same amount. 244 MW solar park in Risti in western Estonia to be largest photovoltaic-production (PV) site in the Baltics. Project marks. Estonia is set to expand its solar-power production with a €62 million loan from the European Investment Bank (EIB) and local banks SEB and Luminor, aimed at financing a new solar park developed by renewable-energy company Sunly. Estonia is taking a firm step toward energy independence with the construction of the Risti solar park, the largest in the region. The initiative has secured €62 million in financing, with the European Investment.
