

Europe renewable energy riyadh

Overview

Saudi Arabia has strengthened its position as a future clean energy supplier to Europe through a series of agreements signed in Riyadh, aimed at establishing export corridors for renewable energy and green hydrogen. The agreements were signed by ACWA Power in the presence of Energy Minister Prince. Riyadh, J, SPA -- In the presence of Minister of Energy Prince Abdulaziz bin Salman bin Abdulaziz, ACWA Power signed today in Riyadh agreements and memoranda of understanding (MoUs) with several international partners, aimed at creating a green hydrogen and renewable energy export value. The workshop showcased the Kingdom's progress in diversifying its energy mix and promoting regional and international integration in clean energy—reinforcing its position as a reliable global supplier of energy and a key leader in the economic corridor connecting East and West. ACWA Power signed a multi-party MoU. Saudi Arabia has signed a raft of new agreements with European energy firms to develop green hydrogen and renewable electricity projects for export – part of a broader plan to supply Europe via the planned India-Middle East-Europe Economic Corridor (IMEC).
