

G63 Install solar container outdoor power

Overview

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. A solar-powered container can run lighting, sound systems, medical equipment or communications gear without waiting for grid hookups. Our family of 6 spent many years traveling full-time in our renovated vintage. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Many people wonder if a solar battery can be installed outside. This is a common concern, especially for users who want to save space indoors or need larger systems. It's equipped with a 3000 watt power.

G63 Install solar container outdoor power
