

Overview

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. Find a network of trusted installers for solar system, solar panels and electricity needs. Find a solar panel installer today! Whether it's door-to-door or online, a forceful salesperson might inform you that a certain deal, like a financing rate or an incentive program, will only remain available. Before learning what solar panel companies to avoid solar scams, you'll need to get an understanding of what types of solar scams are prevalent. Here are some common scams to be aware of: 1. Fake Solar Companies Some scammers create fake solar companies, selling solar panel systems without any. Solar is currently helping millions of Americans save money on their energy bills, and solar incentives like the federal solar tax credit are making solar more affordable than ever. These frauds often combine elements of traditional door-to-door sales tactics with more modern contracting schemes.
