

High-Temperature Resistant Off-Grid Solar Container for Bridges

Overview

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Fully customizable to your exact needs. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Off-grid solar storage systems are leading this shift, delivering reliable and clean power to locations worldwide. This system is realized through the unique combination of innovative and advanced container. The LunaVault paves the way for a sustainable and independent energy future, demonstrating the limitless potential of renewable power systems.
