

How many solar power plants are there in Algeria

Overview

There are 33 Solar photovoltaic power plants in Algeria as of July, 2025. Talmine alone represents. Solar PV capacity accounted for 16. This is expected to contribute 33. 7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Global Energy Observatory/Google/KTH Royal Institute of Technology in Stockholm/Enipedia/World Resources Institute/database. earth. Despite Algeria's reliance on gas and oil resources for power generation, the country has gradually increased its renewable energy potential in recent years.

Data and information about power plants in Algeria plotted on an interactive map.

How Many Solar Photovoltaic Power Plants are in Algeria?

There are 33 Solar photovoltaic power plants in Algeria as of July, 2025. Our database covers major metropolitan areas including Talmine and Djelfa, which feature substantial concentrations of Solar ...

Impressive Algeria solar capacity: 1.48 GW by 2026

A Major Leap in Algeria solar capacity for Renewable Energy Algeria is setting its sights on a significant expansion of its renewable energy capacity, with plans to commission a substantial 1.48 ...

Top 5 Solar Projects to Watch in Algeria

By the end of 2023, Algeria had 437 MW of solar generation capacity installed, but the government has set a goal of reaching a production capacity of 4 GW by 2025.

51.2V 300AH

Top five solar PV plants in operation in Algeria

Solar power is the leading source of renewable electricity in Algeria, with a total capacity of 436.8 MW. About 388.95 MW (82.4%) is grid-connected, ...

Largest solar power stations in Algeria

(Updated October 2024) Here is a list of the largest Algeria PV stations and solar farms. Get to know the projects' power generation capacities in MWp or MWAC, annual power output in GWh, state of ...

Top five solar PV plants in operation in Algeria

Of the total global solar PV capacity, 0.03% is in Algeria. Listed below are the five largest active solar PV power plants

by capacity in Algeria, according to GlobalData's power plants database.

Algeria's PV capacity tops 436.8 MW

Solar power is the leading source of renewable electricity in Algeria, with a total capacity of 436.8 MW. About 388.95 MW (82.4%) is grid-connected, and 47.85 MW (10.1%) is off-grid.

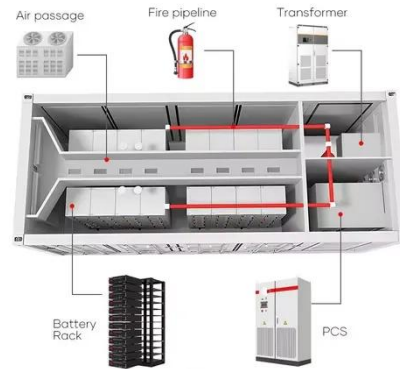

Renewable energy in Algeria

By 2030, the country aims to reach a clean energy capacity of 22,000 megawatts. It expects to generate most of its renewable power through solar photovoltaic technology, with a ...

Algeria Power Plants

List of power plants in Algeria from OpenStreetMap

Nominal Capacity
230Ah
Nominal Energy
