

# How much is the commission for photovoltaic panel business

## Overview

---

A: Commission rates for solar sales vary, but often a rep working on straight commission might earn around 5-10% of the contract value per sale. Some companies instead pay a flat amount per sale or per kilowatt of solar installed. That single moment shifts everything. Suddenly, selling solar power doesn't just feel like another hustle. So, if a solar salesman sells a \$10,000 solar system, he or she will earn a \$1,000 commission. Commissions can vary based on the type of sale, the solar company (or distributor the salesman works for), and the. The solar industry is booming due to growing demand for renewable energy, driving focus on solar sales commissions —a key factor in business success for both residential and commercial solar sales.
