

# Huawei enters the communications green base station market

## Overview

---

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. [Shenzhen, China, Decem] In their latest report, the global technology market intelligence firm ABI Research released its 2023 global base station antenna market research report titled "Passive Cellular Antenna Competitive Analysis". In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender. The 5G Base Station Market was valued at USD 37. 44 billion in 2025 and estimated to grow from USD 47. 92% during the forecast period (2026-2031). Robust growth stems from governments turning spectrum auctions into infrastructure. Global Impact: Currently deployed in 75+ countries, green antennas exhibit significant energy savings, reduced carbon emissions, and cost-efficient network deployment.
