

# Internal rate of return for solar power plants

## Overview

---

The internal rate of return (IRR) has emerged as the gold standard for evaluating solar power generation profitability. ROI (Return on Investment) is a percentage that indicates the total profit, considering how much it was invested. With this article, we aim to help you understand these terms, their implications, and attempt to make this journey smoother for you as a consumer. As mentioned earlier, consumers might find. This is the text version for a video—Levelized Cost of Electricity (LCOE) and Internal Rate of Return for Photovoltaic (PV) Projects—about how NREL conducts such pro forma analysis. It's Part 4 of NREL's Solar Techno-Economic Analysis (TEA) Tutorials video series.
