

# London energy storage project construction

## Overview

---

In this blog, we'll explore the top 7 battery energy storage system projects in the UK for 2025. We'll look at each project's capacity, project cost, current status, and how it supports the broader shift to clean energy. The Department of Business, Energy and Industrial Strategy (BEIS) in the UK has given the green light to the country's biggest ever battery storage project. InterGen has gained planning permission for a 320MW / 640MWh lithium-ion battery site at DP World London Gateway, a new port and logistics. Statera Energy has secured debt financing for co-located storage and gas-fired flexible generation asset near London. BESS at Thurrock Flexible Generation site expected to be largest on UK grid when commissioned. Since 2020, operational capacity has increased by 509%, climbing from 1,128 MW to 6,872 MW in 2025. So far this year, more than 1,405 MW of new capacity has been commissioned, already beating the total for 2024 and putting the. Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. 4 hectares Project Lifespan 40 years The Warley Battery Energy.

## London energy storage project construction

---

### UK's largest battery storage project at 640MWh

Construction of the DP Word London Gateway is expected to get under way in 2022, and the battery to become operational in 2024. Additionally, InterGen is looking to develop another large ...

---

### BW ESS Celebrates Inauguration of the UK's Largest Battery Energy

100MW / 331MWh battery storage system is now operational, forming a key part of BW ESS' UK investment programme. London, 18th February 2025 -- BW ESS has announced the ...

### Top five energy storage projects in the UK

Listed below are the five largest energy storage projects by capacity in the UK, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a ...

## Top 7 Commercial Battery Energy Storage Projects in UK 2025

Discover the biggest commercial battery storage UK projects in 2025, including NatPower's Teesside GigaPark, Statera's Carrington, RES's Coalburn etc.

### Super battery projects that maximise renewable-generated power

Supporting a government growth pledge to build major new LDES projects for the first time in 40 years, Ofgem launched a new cap and floor support scheme in April to unlock billions in

## Green Light for Long Duration Energy Storage in Great Britain

On 10 October 2024 the UK Government gave the green light to a cap and floor scheme to help bring long duration energy storage (LDES) projects to market. LDES projects include pumped storage ...

### Financial close for UK project with 300 MW/600MWh battery storage

Located in Thurrock, near London, the Thurrock Flexible Generation project is expected to energize its BESS by the end of 2024. If the schedule is maintained, it will be the largest operational ...

## Warley Energy hub

The project is on National Grid land adjacent to its 275kV Warley substation. It will connect directly to the London electricity distribution circuit and serve to balance supply and demand in London.

## London Energy Storage Case: Powering the Capital's Green Future

Welcome to London's energy storage revolution - where megawatts meet marmalade sandwiches in the most British way possible. The London energy storage case isn't just about ...

## Top five energy storage projects in the UK

Ofgem has shortlisted 77 projects for the next stage of a government-backed long

duration electricity storage (LDES)  
funding mechanism ...

### **Ofgem advances 77 long duration energy storage schemes in bid for ...**

Ofgem has shortlisted 77 projects for the next stage of a government-backed long duration electricity storage (LDES) funding mechanism that aims to expand Britain's ability to store ...
