

# Make a 12V solar energy storage box

## Overview

---

This DIY project not only boosts home sustainability but also provides in-depth instructions for building a solar box, including written materials, illustrations, and instructional videos. The solar battery box can be used in off-grid camping trips and power outages. **Battery Box:** Use a waterproof plastic or metal container to protect the battery from moisture and damage. **Solar Charge Controller:** Install a solar charge controller to manage the battery's charging process and prevent overcharging. **Wiring:** Gather appropriately gauged wiring for electrical. Building a DIY solar battery box is your best cost-saving option if you're looking for a portable power station that matches your solar panels. You may already be familiar with brands like Bluetti, Jackery, or EcoFlow and their bestselling product — the solar generator. **Version 1:.** Looking for a budget-friendly DIY Solar Power Generator?

In this video, I'll show you how I built a 1280Wh home-made battery box using a 12V 100Ah LiFePO4 battery and a 1500W inverter — all for just \$290 CAD total cost!. Whether you're powering a cabin, RV, shed, or prepping for emergencies, this guide walks you through each step.
