

# New solar bracket for ships

## Overview

---

Wattlab introduced its SolarDeck - a modular and scalable system of deck-mounted solar panels that is designed to yield "significant reductions" in fuel consumption and CO2 emissions - for the seagoing shipping industry, with an expected ROI of 3-5 years. Moreover, based on installation on a seagoing. Turn your container roof into a power station - without welding, cutting, or complicated installs! Our solar panel mounting kits are designed specifically for shipping containers. Designed for durability and performance, our marine mounting solutions ensure reliable solar power for boats, yachts, and marine applications. Easy installation, corrosion-resistant materials, and. Wattlab has spent the previous 18 months developing and testing the new system on board Vertom's 7,280-dwt general purpose dry cargo vessel Anette, in a project co-financed by the European Union's Just Transition Fund.

## New solar bracket for ships

---

### Marine Solar Panel Mounting Systems , Custom Marine Products

Enhance your vessel's energy efficiency with our Solar Panel Marine Mounting Systems. Durable, corrosion-resistant, and easy to install, our mounts are perfect for boats, yachts, and marine ...

## New solar tech aims to transform cargo ships, reducing emissions and

A new solar energy system, designed specifically for seagoing vessels, promises to help shipowners reduce fuel costs and emissions in line with tightening European regulations.

### Wattlab SolarDeck: Solar Power for Ships at Sea

Wattlab introduced its SolarDeck - a modular and scalable system of deck-mounted solar panels that is designed to yield "significant reductions" in fuel consumption and CO2 emissions - for ...

## Solar Power for Ships: Cutting Emissions and Fuel Costs for ...

Discover how solar energy is being integrated into cargo ships to reduce fuel consumption, cut emissions, and pave the way for sustainable maritime transport. Learn about the ...

## Wattlab creates solar deck for cargo ship to offer ...

Wattlab has created solar decks for shipping. SolarDeck is said to offer significant savings and reduced emissions.

## Solar Panel Mounting Kit (Roof)

Our solar panel mounting kits are designed specifically for shipping containers. They screw securely to the container top tubing without piercing the envelope and the bottom channel, so you can mount ...

## Wattlab Launches SolarDeck Plug-And-Play Solar Power For ...

Wattlab, the Netherlands-based maritime solar specialist, has introduced its SolarDeck to the seagoing shipping industry. SolarDeck is a modular and scalable system of deck-mounted solar ...

---

## **Solar Power Advances: Modular System Generates Onboard ...**

For example, breakthroughs in photovoltaics have seen the development of lightweight, flexible, and corrosion-resistant solar panels, which have improved the feasibility of integrating solar ...

---

## **Solar technology: powering the future of shipping**

The interlinked tiles combine solar power generation with hybrid storage technologies, enabling rapid, reliable power availability across various operational scenarios.

---

## **Wattlab unveils solar panels for seagoing ships , SWZ**

This is a modular solar energy system consisting of movable and stackable integrated solar panels and inverters. To date, Wattlab's SolarHatches have been installed on more than 25 ...
