

# Off-grid solar containerized automated project quotation

## Overview

---

Licensed electrical operations currently cover five to six states in the Southwest, with nationwide project coordination available. Get instant answers and pricing details. Our SolarAI will collect your requirements for a custom quote. Or email: [soleilsolar@dangerelectric.com](mailto:soleilsolar@dangerelectric.com). What is LZY's mobile solar container?

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+.
