

Photovoltaic energy storage cabinetized fixed type procurement contract

Overview

The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling a solicitation and ultimately a contract for privately financed on site solar photovoltaic (PV) systems. A working understanding of contract development best practices and access to standardized solar contract templates and request for proposals (RFPs) will help reduce the time and cost associated with this process by improving project transparency and accountability while accelerating solar. Latest Energy Storage RFPs, bids and solicitations. Bid on readily available Energy Storage contracts with the best and most comprehensive government procurement platform, since 2002. Tendering authorities and. This document has been published with the support of Andy Walker, Otto VanGeet, Tom Harris and Chandra Shah of the National Renewable Energy Laboratory (NREL). The material provides guidance for different ownership models including lease, Power Purchase Agreement (PPA), or Owner Build and Operated (OBO).
