

# Photovoltaic panel lift 30 meters

## Overview

---

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder. With GEDA USA's is a leading solar panel lift distributor offering original Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. A patented module "hook" attaches to the edge of a PV module frame and. The mobile scaffold with Solar lift for lifting solar panels. Place the solar panel in the hoisting installation of the scaffold lift and hoist the panel to the desired height using the hoisting rope. Typical units feature 24 V DC or 220 V motors, 150-800 kg load ratings, anti-slip panel cradles, overload protection, and IP65. Our traditional model, with capacity 200Kg, single-phase tension and maximum height in inclined position of 20m, has been supplied for more than two decades in the refurbishing market, mostly to lift materials onto roofs and terraces.
