Find the best PHEV for your needs with detailed specifications, pricing, electric. While fully electric vehicles continue to dominate headlines, the upcoming Vienna Elektro Days 2025 are making a significant statement: the path to emission-free mobility isn't solely paved with batteries. The inclusion of plug-in hybrids (PHEVs) alongside EVs for the first time isn't a compromise. The Mitsubishi Outlander PHEV was once world's all-time best-selling plug-in hybrid until 2022. [4] Cumulative global sales reached 290,000 units in September 2021. The report provides a strategic analysis of the plug-in hybrid electric. With robust government support, private-sector investments, and increasing consumer interest in sustainable mobility, Austria is emerging as a leader in Central Europe for EV charging infrastructure. Plug-in hybrid cars offer drivers the best of both worlds, because they run on both traditional petrol or diesel, but also electricity.
