

# Request quote for how much does a 20kW solar energy storage cabinet cost

## Overview

---

As of 2026, the average cost of a 20kW solar system in the United States ranges from \$41,000 to \$64,000 before incentives or rebates. This price includes equipment, installation, and associated costs. But your actual price will depend on factors like your roof's complexity, local labor costs, the equipment you choose, and what incentives are available in your area. The Enphase Ensemble automatically detects and transitions the system from grid power to backup power in the event of a grid failure so you can always have peace of mind. On average, the gross cost for a fully installed 20kW system is approximately \$40,000 to \$55,000 nationally, though some quotes may reach. The cost of 20kW solar power generation equipment can largely vary based on multiple factors including installation, location, and specific equipment chosen.
