Overview

Our engineers create a custom Solar System Design and manage all necessary permits to streamline your project. Every home is unique, and we design personalized solar solutions that match your lifestyle, budget, and sustainability goals. With multiple mounting options and seamless architectural integration, we ensure your system not. PowerFilm designs and manufactures custom solar cells, panels, and power solutions for portable, and remote power applications using proprietary thin-film amorphous silicon or high-efficiency crystalline PV technology. Modern solar technology has evolved far beyond basic panels, offering homeowners unprecedented control over their energy future.
