

Ring inverter 1kW power consumption watts

Overview

Professional 1000W pure sine wave inverter, suitable for 24V vehicles, with integral Residual Current Device (RCD). This can replace the need for an external RCD and will switch off the inverter in the event a fault is detected between live and earth. Additionally, you'll learn what appliances you can power and how you can select the right inverter size according to your. Whether you're powering an electric strimmer or running a home-from-home, Ring has you covered. This makes them suitable for powering products not compatible with modified sine wave inverters, such as certain power tools, coffee machines, laser printers and sensitive electronics such. DC to AC power inverter with 1000W continuous and 2000W peak power, pure sine wave output, selectable input voltage 12V/ 24V/ 48V DC & output voltage 110V, 120V, 220V, 230V or 240V AC, with safety charging design, LED indicator for working status, built-in fuse and cooling fan for long use time.
