

Rural investment in solar power generation scam

Overview

Green energy scams include “free” solar panel offers, bogus investment opportunities, and impostors posing as electricity companies. While there are some government-funded solar. Demand for solar-powered home systems has increased rapidly in the last several years. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. Please consult your tax professional, as homeowners will not always see a payout for adding solar. This is also based on individual state and federal tax credits. If it sounds too good to be true, it probably is.
