

Saint Vincent and the Grenadines electric vehicle incentives

Overview

The main objectives of the new regime are to reduce import taxes on motor vehicles whilst encouraging citizens to choose newer, more efficient, motor vehicles with smaller engines (below 1,600cc), hybrid and electric. A comparison of the old and new lower rates is summarized below. This is the Energy Report Card (ERC) for 2022 for St. The ERC also includes sectoral data and information on policies and regulations; workforce; training and capacity building; and related areas. The data and information that are available in the ERC were mostly. Plug-in hybrid electric vehicles (PHEV) offer a mixture of battery and petrol (or diesel) power and as a result the disadvantages that apply to combustion engine vehicles also apply to PHEVs. The revised motor vehicle Surcharge Tax will come into effect on April 1st. The Government of St. Vincent and the Grenadines is currently executing a project to test and analyze the effectiveness and cost of operating alternative energy-driven vehicles on the terrain of St. com Any Query?
