Overview

The most common benefits were 401 (k) contribution (92%), work from home options (83%), and flexible working hours (64%). Solar photovoltaic (PV) installers assemble, set up, and maintain rooftop or other systems that convert sunlight into energy. Solar energy is a burgeoning industry, as the United States has set its sights on reaching 100% carbon pollution-free electricity by 2035. By the end of last year, over 250,000 Americans were employed in the solar. Solar construction prevailing wage payroll introduces more classification, fringe, and reporting complexity than most traditional construction projects. Payroll teams supporting solar jobs must manage evolving labor classifications, mixed scopes of work, and heightened audit attention while still. Offering competitive solar panel installation jobs salary packages can make a significant difference in attracting talent and building long-term installation teams. The best-paid 25% made \$63,020 that year, while the lowest-paid 25% made \$46,040. We're sorry, there was a problem loading job openings.
