This technology is internationally patented by Rutten NES and offers several advantages, such as insensitivity to deep discharges, with no deterioration in storage capacity over time; reliability and ease of maintenance; and is particularly well suited to sites where high ambient. This technology is internationally patented by Rutten NES and offers several advantages, such as insensitivity to deep discharges, with no deterioration in storage capacity over time; reliability and ease of maintenance; and is particularly well suited to sites where high ambient. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Summary: Discover how São Tomé and Príncipe's unique geography creates ideal conditions for photovoltaic power generation and energy storage solutions. Learn about. Willing to provide a more reliable and sustainable energy storage solution, ARE Member Rutten NES has created the NES-Store, an innovative, environmentally friendly and sustainable storage system inspired by pumped hydro, but which does away with any topographical constraints. Discover cutting-edge solutions for island nations' unique power challenges.
