

# Sierra Leone High Temperature Solar System

## Overview

---

This initiative aims to tackle persistent energy reliability issues that have long disrupted essential services, including healthcare and food storage. The system integrates 410 Wp solar modules and Weco lithium storage units to ensure continuous power. A new SLE 830 million (EUR 34mMillion) initiative funded by the European Union will further advance Sierra Leone's vision of access to sustainable energy. Freetown, 5th June 2025: In a significant step towards clean energy and improved electricity access, a consortium of Development Finance Institutions (DFIs) and renewable energy fund manager Frontier Energy has announced a co-investment of over \$52 million for the Planet Solar project in Sierra Leone. This project addresses the challenges posed by an unstable national power grid, enabling the customer to meet. Key Figures & Findings: Aptech Africa an established renewable energy provider with operations across multiple African countries, has completed the installation of an 18.04 kWp solar photovoltaic system with a 63.6 kWh lithium battery bank at a 20 kW cold storage facility in Newton, Freetown. An independent power project. A second project phase is planned for 2023, increasing its capacity to 25 MW.

### Sierra Leone solar expansion: Essential Scatec deal in 2025

The introduction of large-scale solar power is expected to have a significant positive impact on Sierra Leone's economy. A reliable electricity supply will attract foreign investment, ...

## A Residential Solar Success in Freetown, Sierra Leone

Aptech Africa successfully installed a 10 kVA solar PV system at a private residence in Freetown, Sierra Leone, delivering clean, reliable, and efficient energy.

## Sierra Leone Cold Storage Goes Solar

Solar-powered cold storage in Sierra Leone tackles energy reliability, supporting local healthcare and food preservation with an innovative 18.04 kWp renewable energy system.

## Sierra Leone Gets its First

## Large-Scale Grid-Connected Solar IPP ...

In a significant step towards clean energy and improved electricity access, a consortium of Development Finance Institutions (DFIs) and renewable energy fund manager Frontier Energy has ...

## 250605 Sierra Leone launches solar mini-grid energy project

This landmark initiative, funded by the European Union and implemented by UNOPS and its hosted entity, Sustainable Energy for All (SEforALL), is a significant stride toward Sierra Leone's goal of ...

## Solar energy roof Sierra Leone

Recognizing this pressing need, Aptech Africa saw an opportunity to make a meaningful impact by designing, supplying, installing, and commissioning a 51.2kWp ground-mounted solar system in ...

## Title: Optimizing Solar Energy Utilization Through Advanced

This study investigates the optimization of solar energy utilization through the integration of advanced photovoltaic

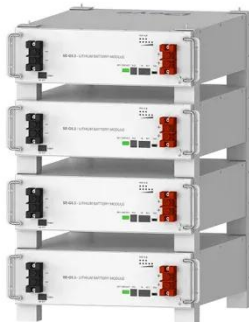

(PV) systems and energy storage solutions (ESS) in Sierra Leone.
