

Solar Power Profit Sharing Scam

Overview

They involve scammers making false promises or tricking you into paying for services you'll never receive. Recently, the FTC also issued an alert to warn consumers about solar power scams, such as free solar panels or exaggerated savings. In the past decade, multiplying the number of companies serving consumers. People complain that they were deceived about costs and savings, misled about. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. Find a solar panel installer today! Whether it's door-to-door or online, a forceful salesperson might inform you that a certain deal, like a financing rate or an incentive program, will only remain available. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. Compare quotes from multiple installers and check their reviews, certifications, and track records before signing any contracts. Research companies online for news stories, lawsuits, or settlements, and be wary of recent name changes that might hide problematic histories.
