

Solar inverter order demand weakens

Solar Panel

PV Combiner Box

Lithium Battery

Hybrid Inverter

Overview

The global solar inverter market will contract for two consecutive years, declining 2% to 577 Gigawatts AC (GWac) in 2025 and a further 9% to 523 GWac in 2026, according to Wood Mackenzie's latest 2025. The downturn follows record shipments in 2024 and. Wood Mackenzie's latest analysis expects market uncertainty in China, Europe and the U. Image: Lauri Veerde, Wikimedia Commons, CC BY-SA 4. Persistently weak demand for polysilicon has led to continuous price.

Solar inverter order demand weakens

Market Demand Weakens; Prices Across the Entire Solar PV Supply ...

Demand in December is expected to weaken further. With shrinking market space, module makers will likely continue adopting a "production-cut-for-price-support" defensive strategy, ...

Wood Mackenzie predicts 2-year decline in global solar inverter ...

Wood Mackenzie's latest analysis expects market uncertainty in China, Europe and the U.S. to cause two consecutive years of contraction in the global solar inverter market, forecasting a ...

Policy and supply chain factors slow global PV demand

The top four markets worldwide--China, the U.S., Europe, and India--each region faces multiple challenges, including economic changes, policy uncertainties, and supply-demand ...

Global solar inverter market faces two-year decline before stabilising

"After years of an exponential rise in solar inverter demand, continuous shipment growth is no longer realistic for even the top global inverter manufacturers.

Solar inverter market to shrink in 2025-26 amid uncertainty in China

The global solar inverter industry will contract over the next two years as major markets in China, Europe and the US confront new volatility, according to energy market analyst Wood ...

Global solar inverter market faces two-year decline before stabilizing

The global solar inverter market is poised for a downturn, according to a new report from Wood Mackenzie.

Solar Inverter Market Size, Trend, Forecast Report [2026-2035]

Display screen
Linux operation system
quad-core processors
smooth and stable system

Solar inverters are essential in enhancing the performance and reliability of sun structures, making renewable strength more sensible and effective for residential and business ...

WoodMac: Global solar inverter market expected to shrink in next 2 ...

The global solar inverter market will contract for two consecutive years, declining 2% to 577 GWAC in 2025 and a further 9% to 523 GWAC in 2026, according to Wood Mackenzie's latest ...

Solar Inverter Market Demand and Growth Insights 2024

Solar inverters play a crucial role in converting DC electricity generated by solar panels into AC electricity for use in homes and the grid. Moreover, supportive policies, declining inverter costs, and ...
