

Solar power generation plant ranking

Overview

Based on the latest 2025 data, here are the world's largest operational solar farms ranked by their installed capacity: 1. Gonghe Talatan Solar Park – China (15,600 MW) The Gonghe Talatan Solar Park stands as the undisputed champion of solar installations worldwide. A report from the National Renewable Energy Laboratory found that solar power accounted for 54% of new U. electricity generation capacity in 2023, with 22 states generating more than 5% of their electricity from solar, led by California at 28. No speculative or half-built megaprojects and planned expansions.

Solar power generation plant ranking

Solar power by country

The worldwide growth of photovoltaics is extremely dynamic and varies strongly by country. In April 2022, the total global solar power capacity reached 1 TW, increasing to 2 TW in 2024. The top ...

14 Largest Solar Companies In The World [As of 2026]

In this article, we've focused on the titans of the industry -- the largest solar companies in the world -- and explored their crucial role in shaping the future of energy. We've also highlighted ...

Solar power by country

OverviewAsiaGlobal use figuresAfricaEuropeNorth AmericaOceaniaSouth America

Armenia due its geographical and climate properties is well-suited for the solar energy utilization. According to the Ministry of Energy Infrastructure and Natural Resources of Armenia the country is capable of producing 1850 kWh/m per year. For comparison

European countries are capable of around 1000 kWh/m per year on average. Two main panel types utilized in Armenia are the photovoltaic and thermal solar panels. The ...

The 20 Largest Solar Power Plants in the World

What Is the World's Largest Solar Power Plant? The largest solar power plant in the world is the Bhadla Solar Park, which was completed in 2020. This solar thermal power plant is located in Bhadla in the ...

Largest PV power plants list

Find a list of solar photovoltaic plants that are currently considered the largest on the globe. We have listed the ground-mounted utility-scale stations, which have already been connected to the power ...

The 15 Biggest Solar Farms In The World 2026 , The ...

We've looked at the 15 biggest solar farms in the world right now, examining capacity, total investment, and the future of solar power worldwide.

Solar Power by Country 2026

Data and analysis including a list of solar power in every country in the world, countries with the most solar power, and countries that generate the highest percentage of their electricity from solar power.

Largest solar PV power plants worldwide 2024, Statista

Statista R identifies and awards industry leaders, top providers, and exceptional brands through exclusive rankings and top lists in collaboration with renowned media brands worldwide.

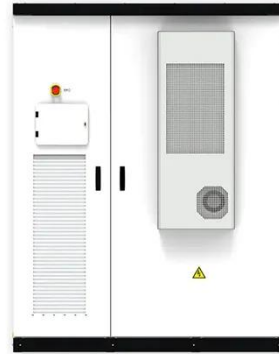

Country Rankings

This dashboard ranks countries/areas to their renewable energy power capacity or electricity generation. The data can be further refined based on region, technology or year of interest.

World's Largest Solar Farms 2025: Complete Guide To Mega Projects

Discover the world's largest solar farms in 2025. Complete rankings, capacity

data, locations, and analysis of mega solar projects transforming global energy.

World's 10 biggest solar power projects transforming energy future

What follows are the top 10 solar power plants that are actually operational and verifiably producing power as of 2025. No speculative or half-built megaprojects and planned expansions. ...
