

Solar power greenhouse rental

Overview

Monthly rental includes a crop-protected greenhouse, water usage, fertile soil, and electricity for pumps. Utilities include electricity, gas, and water. We offer a month-to-month rental contract. A deposit of a month's rent is required before the date of occupation, which will be used as last month's rent on termination of the lease agreement. A notice period of one calendar month is required from both. The Derksen Greenhouse is perfect solution for plant lovers! With an automatic vented window, ample storage and workspace for your supplies, hanging racks for your plants, and industrial grade polycarbonate roof sheeting, your plants will thrive all year long. Whether using passive solar techniques or advanced PV systems, these structures maintain ideal growing conditions even in freezing temperatures. Whether you're a gardening enthusiast, a

Solar power greenhouse rental
