

# Stockholm summer 100mw solar energy storage project

## Overview

---

Swedish utility Malarenergi and balancing power operator Polar Capacity have agreed to develop a 100 MW battery energy storage park in connection with a combined heat and power plant in eastern Sweden. Niam and Evecon will deploy 84MW of solar power and 26MW of energy storage across 11 project sites in Latvia. News from the Nordics and the Baltics, with BESS projects launched in Sweden, Denmark and Latvia by Centrica, Nordic Solar and Niam Infrastructure and Evecon. As Sweden's energy system races through one of the fastest storage build-outs in Europe, it's the perfect moment to take stock of who's actually leading the charge. Our latest overview of the top 20 battery energy storage projects in Sweden reveals a market that has shifted from cautious pilot. Utility-scale solar projects in Sweden, Finland and Denmark are flourishing, while battery storage and AI are reshaping what's possible. According to. Stockholm's photovoltaic container factories are revolutionizing how industries and communities access clean energy. Sweden aims to achieve 100% renewable electricity.
