

# Support customization of various battery cabinet sizes

## Overview

---

In this comprehensive guide, we will delve deep into the world of battery racks and cabinets. We will demystify their function, analyze different types and materials, and break down the crucial design considerations for both lead-acid and lithium chemistries. Standard sizes are available in 32 and 40 battery configurations to fit multiple battery sizes from a wide range of manufacturers including NorthStar Battery, East Penn (Deka), EnerSys and C&D Technologies, or we can customize a battery cabinet to fit your specific needs. Our capabilities include: laser cutting, CNC forming, precision welding, powder coating, screen. Selecting the best cabinets for C&D pure lead batteries depends on UPS model, desired runtime, room layout, and other considerations. Let us help you build your. This solution is completely customizable and flexible to support your application requirement. A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or 12) or outdoor (NEMA 3R) rated enclosure. In addition, exterior breaker boxes are supplied to simplify onsite installation.

## Support customization of various battery cabinet sizes
