

# Tanzania rooftop solar energy storage project

## Overview

---

This landmark project, located in Kingolwira on the outskirts of Morogoro, marks a pivotal moment in Puma Energy's commitment to empowering Tanzanian industries with sustainable, cost-effective, and reliable clean energy solutions. Comprising 1,296 state-of-the-art solar modules and six optimized inverters, the grid-tied system is designed to deliver consistent daytime power throughout the factory's production season, which runs from May to October. A cutting-edge 570-kilowatt (kW) rooftop solar power facility was officially commissioned. Key Figures & Findings: Tanzania has commissioned a 570kW rooftop solar plant at the Alliance One Tobacco Tanzania Limited (AOTTL) factory in Morogoro, about 200 km from Dar es Salaam. The project features 1,296 modern. Develop and operate rooftop solar energy systems to provide lighting and energy for other domestic and industrial uses, such as refrigerators, water heaters and other appliances, for residential and industrial consumers specifically in areas where the national grid does not reach. Develop and. 15 kW residential system for a modern villa in Dar es Salaam, featuring high-efficiency panels and battery backup.
