

What equipment does the communication base station power cabinet have

Overview

A typical communication base station combines a cabinet and a pole. It keeps devices safe from bad weather, dirt, and damage. These cabinets are very important for modern networks, like standalone and non-standalone. Outdoor communication cabinets, also known as outdoor enclosures, are specialized equipment directly exposed to natural climatic conditions, typically made from metal or high-strength non-metallic materials. As 5G deployments surge 78% YoY (GSMA 2023), these silent power guardians face unprecedented.
