

Where can solar power be sold

Overview

Although many people with solar systems on their homes or businesses think that they can sell excess electricity to the power grid, the reality is that you can only sell power to the grid if you have an electricity generator's license and qualified power-generating assets. Before diving into where to sell, it's important to understand that used solar panel buyers typically fall into three categories: homeowners seeking budget-friendly solar solutions, off-grid enthusiasts building DIY systems, and contractors sourcing equipment for smaller projects. The solar panel. That growing popularity is great news for sellers of solar-equipped homes. It also covers energy compensation schemes. All of our content is thoroughly reviewed and fact-checked by our team of home improvement experts.
