

Which telecommunications company in Cape Verde has the most base stations

Overview

Cape Verde Telecom (CVTelecom) reported passing over 22,000 FTTH homes by the end of 2021, primarily in urban areas. Telephones - main lines in use: 72 764 (2011) Telephones - mobile cellular: 496 900 (2011) Radio broadcast stations: AM 0, FM 22 (and 12 repeaters), shortwave 0 (2002) Television broadcast stations: 5 (and 7 repeaters) (2008) Internet service providers (ISPs): 4 (2008) Internet Users: 150 000. The country has two main mobile network operators, Cabo Verde Telecom and Unitel, which provide a wide range of services including voice, data, and internet. Cabo Verde Telecom is the incumbent operator and offers a range of services including fixed and mobile telephony, as well as internet and. Compared to the United States, Cape Verde is massively lagging behind in the development of telecommunications. Under the country code +238, there were a total of 648,320 connections in 2024. Among them were 587,026 mobile phones, which corresponds to an average of 1. It originated in the 1990s after postal-telecom services separated. It runs carrier-neutral data centre operations and wholesale. State-owned operator Cabo Verde Telecom put out a tender in December 2024 to replace a fibre link between the islands that make up the country, comprising 750 km of fibre and intending to provide a backbone to develop 5G services in the country - important for ensuring widespread connectivity. North America leads with 42% market share, driven by corporate sustainability initiatives and tax incentives that reduce total project costs by 18-28%.
